As DVD Creator software, Sothink Movie DVD Maker offers you absolutely the fastest way to do all video to DVD, DVD Burning and DVD transferring jobs. Let you enjoy DVD movies from any sources on most portables and home DVD players with your friends and families.

This DVD creator provides you the simplest way to convert and burn DVD movies from all popular formats of videos. It can create DVD from most video files such as AVI to DVD, DivX/XviD to DVD, MP4 to DVD, MPEG, MOV, RM, WMV to DVD, and even create DVD movies from MOV videos taken by iPhone 4. It also burn DVD from HD MOV, MKV, M2TS and create HD DVD movies with high definition up to 1080p. Besides creating DVD-format discs, the DVD Creator also allows you to create DVD folders for further DVD writing and burning. It is no doubt that DVD backup and DVD creation are never so easy after using this DVD writing software. Even for very beginners, creating DVD movies or personalized DVD discs could be as simple as just one click!

What's more, this DVD creator pre-made dozens of stylish DVD menu templates for you to directly customize DVD navigation and background pictures with ease. Many other powerful DVD authoring functions like trimming video to desired movie clips, editing dimension, adding external subtitle, etc, are also absolutely supported by this DVD creator software!
