Super Mp3 Recorder Professional, the powerful recorder, editor and player, makes a complete recording studio of your computer. With the recorder you can record voice from microphone, internet streaming audio, or music played by Winamp, Windows Media Player, Quick Time, Real Player, Flash, games, etc. Super Mp3 Recorder Pro is able to automatically detect the recording formats your sound card supports and then set the application's parameters for the best possible performance. The recordings can be saved as .mp3, .wav, .wma, .vqf and .ogg files. What makes Super Mp3 Recorder Pro more powerful is its editing feature. It can edit audio files as you desire by cutting, copying, pasting, trimming and various DSP effects. Another useful feature is recording schedule which enables automatic recording, that is, Super Mp3 Recorder Pro starts and stops recording at any time you want.

Super Mp3 Recorder Pro has a Voice Activation System with which you can choose to skip silent passages, or stop the recording after a certain amount of silence. This option is especially useful when you're recording streaming audio and net congestion temporarily stops the stream. Instead of having a big blank spot in your recording, Super Mp3 Recorder Pro will just pause and wait for the signal to reappear.

Key Features

Powerful Recorder

Super Mp3 Recorder Pro can record any signal played through your sound card into Mp3, Wma, Vqf, Ogg or Wav files.

CD Quality Recordings

With its powerful sound engine Super Mp3 Recorder Pro produces CD quality recordings.

Audio File Editing

Super Mp3 Recorder Pro can edit audio files as you desired by cutting, copying, pasting, trimming and various DSP effects.

Recording Schedule

Super Mp3 Recorder Pro can start and stop recording at any time you set.

Easy-to-use User-friendly Interface

Most functions can be called up with a simple mouse click or menu selection.

Flexible Setting

Super Mp3 Recorder Pro is able to automatically detect the recording formats your sound card supports and then set the application's parameters for the best possible performance. The default parameters work in most cases, but you can change them easily to best suit your needs.

Record Volume Control Support

Super Mp3 Recorder Pro integrates the complete set of record volume control for your convenience.

Direct-To-Disk Long Time Recording Support

Super Mp3 Recorder can record on the fly for as long as your like without interrupt. It can record and save to an mp3 file in one operation instead of having to save it to a wav and then spend time converting.

Recording History Management

Super Mp3 Recorder Pro enables you to manage recording files conveniently.

Voice Activation System

Super Mp3 Recorder Pro has a Voice Activation System with which you can choose to skip silent passages, or stop the recording after a certain amount of silence.

Hotkey Support

Super Mp3 Recorder Pro supports hotkey setting (F8 to start recording and F9 to stop recording by default).

System Requirement

- Windows 98, ME, 2000, XP or 2003 Server
- Full-duplex sound card is also required.
