All iPhone users can't backup the SMS to anywhere until the SMS box is full, then you have to delete all of them to prevent iPhone rejecting new SMS receiving. With Tansee iPhone Transfer, you can transfer the iPhone SMS to computer as a txt file or a ANTS file before the event above happens. Before the transfer, you can choose to transfer from all contacts or a single contact, further more, you can choose transfer the SMS to a TXT file or a ANTS file. In ANTS file condition, you can protect the file with a password to keep your privacy. From now on ANTS file support edit feature just the same operation process as the SMS edit on iPhone.

Tansee iPhone Transfer SMS can provide you:

- Backup SMS in iPhone to computer before iPhone reject receiving new SMS.
- View and Manage old iPhone SMS in your computer.
- View SMS in Text file format (.txt file), ANTS file format (.ants file), MHT file format (.mht file) on PC.
- Password protection support (ANTS file only).
- Edit SMS (ANTS file only).
- Print SMS (MHT file print by IE).
