Key Features

The input and output formats supported by TOP DVD to iPhone Suite

- Convert DVD, AVI, WMV, MOV, RM, RMVB, DAT, FLV, ASF, MPG, MPEG to iPhone MPEG-4, iPhone MPEG-4 AVC.

Support the previewing function

- You can preview the input files before conversion to check the correctness of the input files, select the segments you prefer and get a clear idea of the converted effect.

Support batch conversion mode

- Files can be converted in batches at a time, and you don't have to convert the files one by one.
- The conversion speed will be definitely increased, and it is incomparable among all the converters.

Clip any segment of the files freely

- You can clip any segment of the files at will simply by setting "Begin time" and "End time" to select your favorite segments to convert, and conversion can be more accurate.

Customize parameters

- Our suite provides you with multiple parameters, such as audio channel, audio quality and video quality, to get the output effect you like most.

Support automatically shutting down the computer

- The computer can be automatically shut down due to the auto-shutdown function, and you can do anything else in the process of conversion.
- Conversion can be freer.
