Key Features

The input and output formats supported by TOP DVD to WMV Suite

- Support the input formats of DVD, MPEG, AVI, RM, FLV, MKV, VCD and MP4.
- Support the output formats of WMV and BMP.

Preview the input files before conversion

- Before conversion, you can watch the input files in advance to check the correctness of the files, select the segments you like most and get a clear idea of the converted effect.

Shut down the computer automatically after file conversion

- The suite provides you with an auto-shutdown function to automatically shut down the computer after the conversion work is finished, and you can leave the computer alone at any time. Don't worry, and everything will be fine.

Freely clip any segment of the files

- You can freely clip any segment of the files by setting "Begin time" and "End time", and the conversion of the whole files is deleted.

Support batch conversion mode

- Files can be converted in batches at a time, and the conversion speed is greatly increased.

No virus, spyware or adware

- There's no virus, spyware or adware to threaten the computer, and your computer is in an absolutely safe condition.

System Requirement

- OS: Win2000/2003/XP, Windows Vista
- Processor: 1GHz Intel/AMD processor or above
- RAM: 512MB memory or above
- Hard Disk: 100MB or above
