Ever thought of sharing PowerPoint presentations on YouTube? How about sharing them on your iPod, PSP or BlackBerry? Or maybe playing these presentations on your computer without Microsoft PowerPoint installed? With **Xilisoft PowerPoint to Video Converter**, now you can! Convert PPT to video like AVI, H.264/MPEG-4 AVC, MOV, MPEG-2, H.264, MPEG-4, FLV SD videos, and even to HD-format videos. Three editions satisfy different levels of needs.

Aside from converting PPT to video files with all slide elements preserved, the option to remove music/animation is available, so you can create a soundless PowerPoint video. You can also record your presentation rehearsal in real-time and convert the recording to video.

- Convert PPT to video formats: AVI, H.264, WMV, MP4, MOV, etc.
- HD-format videos also supported: HD AVI, HD H.264, and HD MPEG-2 TS
- Make video presentations playable on iPod, iPhone, PSP and BlackBerry
- Share PowerPoint videos on YouTube or other video sharing site
- The Pro version allows adding watermark to video presentation

Until 02/22/2010 only \$69.97 [Buy now](#)

Key Features

Make PowerPoint into Video for Multimedia Players

Play PowerPoint videos on computer, multimedia devices and even on internet browsers

- **PowerPoint on Media Players**

Convert PowerPoint presentations to AVI, WMV, MP4, or MOV videos then play them with any media player on the computer without Microsoft PowerPoint installed.

- **PowerPoint on Portable Digital Players**

Convert PowerPoint files to H.264 or MPEG-4 videos, so you can watch them on your iPhone, iPod, PSP and BlackBerry.

- **PowerPoint on HD Devices**

HD-video formats are also supported: HD AVI, HD H.264/MPEG-4 AVC, HD MPEG-2 TS, HD WMV, HD MOV, etc.

- **PowerPoint on the Internet**

Also share your PowerPoint videos on YouTube, Google Video, your blog or other video-sharing site by just converting PowerPoint into FLV format.

3 Ways to Convert PowerPoint Presentations

Convert PowerPoint to video format: record, reserve all elements, remove effects

- **Rehearse, Record then Convert**

You can rehearse your presentation process first, so you have an idea how long the process would take. Record your commentary and background music, playback the slides, and then convert the recording into video presentation.

- **Convert with All Slide Elements Preserved**

Maintain all slide elements including animations, transitions, sound effects, actions and slide-show playback settings in the output video.

- **Create PPT Video**

The quickest way is to convert PPT into video with animation and sound effects removed.

PowerPoint Video Output Customization

Adjust settings and parameters for a customized PowerPoint video

- **Attach Watermark to Your Video**

Add your company's trademark to your videos to protect your presentations from being used or distributed illegally.

- **Optimize PowerPoint Video**

Set slide playback time interval, add background music or sound effects for a personalized presentation video.

- **Multiple Output Solutions**

Create as many output videos with different settings as you like, so you can play them on different devices.

- **Set Output Parameters**

Tweaking the resolution, video quality, frame rate and other parameters is available, enabling you to create a custom presentation video.

Handy Preview, High Compatibility, Easy to Use

Presentation slide preview, rich input formats and easy to use interface

- **Preview Slides**

Preview your presentation slides one by one.

- **High Compatibility with PowerPoint Versions**

Support all presentations (ppt, pptx, pptm, ppsx, pps, ppsm, potx, potm, pot) made by Microsoft PowerPoint XP, 2003, 2007.

- **Simple to Use**

No need to learn the complex terms in coding or multimedia editing. Xilisoft PowerPoint to Video Converter does the job for you!
