Ever thought of sharing PowerPoint presentations on YouTube? How about sharing them on your iPod, PSP or Blackberry? Or maybe playing these presentations on your computer without Microsoft PowerPoint installed? With Xilisoft PowerPoint to Video Converter, now you can! Convert PowerPoint presentations to AVI, H.264/MPEG-4 AVC, MOV, MPEG-2, H.264, MPEG-4, FLV SD videos, and even to HD-format videos.

In addition to converting PowerPoint presentations to video file while all slide elements preserved, option to remove music or animation is available, so you can create an audio-less PowerPoint video. You can also record your presentation process in real-time.

- Convert PowerPoint to video formats like AVI, H.264, WMV, MP4, and MOV
- HD-format videos are also supported: HD AVI, HD H.264, and HD MPEG-2 TS
- Make video presentations playable on iPod, iPhone, PSP and Blackberry
- Share PowerPoint videos on YouTube

**Xilisoft PowerPoint to Video Converter + [Xilisoft DVD Creator](#) \$85.90** Until 02/22/2010 only **\$67.00** [Buy now](#)

### Key Features

- **Supports Playback on Various Multimedia Devices**

Play PowerPoint videos on computer, various multimedia devices and even on internet browsers

- **PowerPoint on Media Players**

Convert PowerPoint presentations to AVI, WMV, MP4, or MOV video then play them on any computer media player without Microsoft PowerPoint installed.

- **PowerPoint on Portable Digital Players**

Convert PowerPoint files to H.264 or MPEG-4 video so you can watch them on your iPhone, iPod, PSP and Blackberry.

- **PowerPoint on HD Devices**

HD-video formats are also supported: HD AVI, HD H.264/MPEG-4 AVC, HD MPEG-2 TS, HD WMV or HD MOV.

---

- **PowerPoint on the Internet**

You can also share your PowerPoint videos on YouTube, Google Video, your blog or other video-sharing site, just convert them into FLV format.

## **Different Ways to Convert**

3 Ways to convert PowerPoint to video-format

- **Rehearse, Record then Convert**

You can rehearse your presentation process first, so you have an idea how long the process would take. Record your commentary, background music and playback the slides, then convert them into video presentation.

- **Convert with All Slide Elements Preserved**

Maintain all slide elements including animations, transitions, sound effects, actions and slide-show playback settings in the output video.

- **Create PowerPoint Video**

The quickest way is to convert PowerPoint files into video with animation and sound effects removed.

## **PowerPoint Video Output Customization**

Adjust settings and parameters for a customized PowerPoint video

- **Optimized PowerPoint Video**

Set slide playback time interval, add background music or sound effects for a personalized presentation video.

- **Multiple Output Solutions**

Create as many output videos with different settings as you like, so you can play them on different devices.

- **Set Output Parameters**

Settings such as tweaking the resolution, video quality, and frame rate are available.

## **Handy Built-In Preview; High Compatibility**

Presentation slide preview, rich input formats and easy to use interface

- **Preview Slides**

Preview your presentation slides one by one.

- **High Compatibility with PowerPoint Versions**

Support all presentations (ppt, pptx, pptm, ppsx, pps, ppsm, potx, potm, pot) made by Microsoft PowerPoint XP, 2003, 2007.

---

- **Simple to Use**

No need to learn the complex terms in coding or multimedia editing. Xilisoft PowerPoint to Video Converter does the job for you!
