If you are seeking for an easy-to-use Blu-Ray to Divx ripper, here is the right place. With XtoYsoft Blu-ray to DivX Ripper which is the most easy to use Blu-ray to DivX Converter, you can enjoy your Blu-ray movies in DivX/XviD format on portable multimedia player in an easy and fast way. As a decrypter, it can remove all known Blu-ray copy protections to convert any Blu-ray. As a converter, it can convert Blu-ray to DivX/XviD with sound output quality. You will have happy experience with it.

- Decrypt copy protected Blu-ray
- Convert any Blu-ray to DivX/XviD
- Fast speed, easy operation, and high output quality

Key Features

Decrypt protected Blu-ray

It will remove all known AACS copy protections, BD+ copy protections, Region Code, BD-Live, UOPs and MKB V23 to make your Blu-ray open resources.

Convert from different sources

It converts Blu-ray from disc, folder and also ISO image file on the PC.

Convert any Blu-ray to DivX/XviD

It rips any Blu-ray and converts them to DivX/XviD for playback on various portable devices with high video audio sync technology.

The fastest conversion you have ever experienced

Besides batch conversion, it also supports multi-core CPUs, and what's more, the newest NVIDIA CUDA. So you have every reason to believe that its conversion speed is much faster than any other similar product on the market.

Easy to use UI

The operation is extremely easy, for its UI is especially designed for you to finish the whole conversion process without any obstacle.

Specify your favorite subtitles and audio track The optional subtitles and audio tracks for the output are under your control, just specify those you prefer.

Title preview

You can preview the title just like with a real Blu-ray player. So, you don't need to worry about any setting mistake with the help of real time preview.

Detail process information

During the converting process, the detail progress information can be checked all the time including past time, left time, and so on with ever changing movie pictures in particular.

Smooth environment

Smooth operating environment is ensured by the built-in codec so unexpected codec problem will never happen.
